

ype	Examples
-----	----------

Linear Models	Linear Regression, Logistic Regression
---------------	--

Tree-Based Models	Decision Trees, Random Forest, XGBoost
-------------------	--

Instance-Based	k-NN (k-Nearest Neighbors)
----------------	----------------------------

Bayesian Models	Naïve Bayes, Bayesian Networks
-----------------	--------------------------------

Neural Networks	MLP, CNN, RNN, Transformer
-----------------	----------------------------

Clustering	K-Means, DBSCAN, Hierarchical Clustering
------------	--

Dimensionality Reduction	PCA, t-SNE, UMAP
--------------------------	------------------
